

# Mammal Inventory

I haven't gotten all the links established yet. But, at the same time, this will be under construction for the rest of my life!!! It is a labor of love and hopefully will pique your curiosity about the mammals around the driftless area of Wisconsin.

This is just a few that I've seen for certain. We have a trail cam that we like to use but it hasn't identified any critter that we haven't seen personally...yet!!!

This list is arranged in alphabetical order with the common name first and the Latin name following. I've added bits of info on each critter as I come across it; here's the [references](#) that I've used for this info.

[Bat, Big Brown](#) – *Eptesicus fuscus*

[Bat, Little Brown](#) – *Myotis lucifugus*

[Bobcat](#) – *Lynx rufus*

[Chipmunks, Eastern](#) – *Tamias striatus*

[Coyote](#) – *Canis latrans*

[Deer, White-tailed](#) – *Odocoileus virginianus*

[Fox, Red](#) – *Vulpes vulpes*

[Ground squirrel, Thirteen-lined](#) – *Ictidomys tridecemlineatus*

[Mink](#) – *Mustela vison*

[Mole: Eastern mole or Common mole](#) – *Scalopus aquaticus*

[Mouse, Deer](#) – *Peromyscus maniculatus*

[Mouse, House](#) – *Mus musculus*

[Opossum, Virginia](#) – *Didelphis virginiana*

[Rabbit, Eastern Cottontail](#) – *Sylvilagus floridanus*

[Raccoon, Common](#) – *Procyon lotor*

[Shrew, Northern short-tailed](#) – *Blarina brevicauda*

[Skunk](#) – *Spilogale putorius* or *Mephitis mephitis*

[Squirrel, Eastern Gray](#) – *Sciurus carolinensis*
